

Math 105-30 Summer Term III  
Quiz 3

Name: \_\_\_\_\_

You have 5 min to complete this quiz, no quiz will be accepted after that time.

**1.** (*25 points*) An instructor, possibly named Jacob, invested money in Nintendo stocks right before Pokemon Go came out. He invested \$100, and was returned \$150. How much interest did he make?

HINT: Use the formula  $I = F - P$  where  $F = 150$ , and  $P = 100$
