He was a really good TA and made the class something to actually look forward to which is really hard to do with recitation periods. Even though he didn't usually get reactions from his jokes they were still pretty funny and definitely made time go by faster. he was also a very effective teacher and was able to teach an entire unit in one 50 minute recitation period clearly and effectively. I can't really think of any areas that he could improve in.

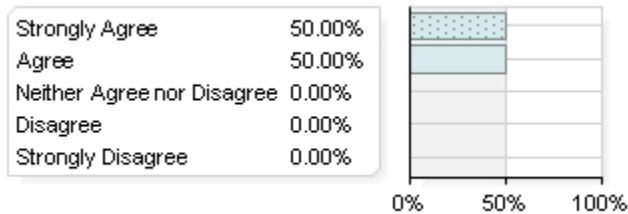

I thought i would not like the class but the instructor makes it interesting and answers any questions that a student has. he is available outside of the student to his students. Encourages his students his student to talk in the class.
